Proposal:

StrengthBank® Classroom Strategies

Based on StrengthBank® For High Schools - A Relationship Skills Initiative
(Innovative Courses Accredited by Texas Education Agency)

Objectives

Student Self-understanding of Purpose: Student behavior and attitude towards learning is critical to achievement. StrengthBank® Classroom Strategies are based on *StrengthBank® For High Schools - A Relationship Skills Initiative* - research based strategy that allows all teens solutions for the specific need of personalization for their education experience. That personalization need filled, classroom behavior becomes civil and engaged toward learning: fewer discipline problems and more time to teach.

Goal

Student engagement for relationship skills in readiness for the world beyond high school makes the learning relevant to what lies ahead.

How StrengthBank® Differentiates itself

How we differ from "similar" classroom management programs is the personalization piece first rather than a paradigm of class rules or tricks/games to engage learners. The StrengthBank® Classroom Strategies are relational, live "mental workouts." They are not about giving information but are centered on our trademarked methodology; supplying information or definitions will not get the result needed. Most students can memorize a definition and give an application for the definition. What matters is that the StrengthBank® Classroom Strategies become a way of life even outside the classroom. The "magic" is in the certification training where the methodology for using the information is revealed.

StrengthBank® For High Schools - A Relationship Skills Initiative is a living curriculum of everyday moments matched up to a greater perspective of life than making decision through the lens of one person or one circumstance. StrengthBank® strategies learned and experienced with others gives each student the chance to be confirmed in and connected with his or her StrengthBank® (*bank of strengths with its "original equipment's workouts"*) - an identity for better classroom engagement and a lifetime of achievement. From being respected, students

learn to respect; from receiving help, students learn to give help; from being heard, students learn to listen.

StrengthBank® Classroom Strategies

Fees

<p>In-Service Presentation and License for Schools Beginning StrengthBank® Classroom Strategies</p>	<p>Each schools year’s training fees include a curriculum license fee (\$100 annually).</p> <ul style="list-style-type: none">  High School Faculty in-service StrengthBank® Classroom Strategies certification presentation - 6 hour training. <p style="margin-left: 40px;">\$3,500 per training session up to 100 participants + \$75 per person for teacher manual.</p> <p style="margin-left: 40px;"><i>There is no limit to audience size. However over 100 participants is an additional \$25 per person + \$75 per person for teacher manual.</i></p>  <i>New teacher in-service each year: Same as initial year listed above.</i>  <i>*Annual Renewals are required for quality control purposes for each teacher’s first 4 years using the strategies: 2 hours in-service @ \$3,500.00 up to 100 participants over 100 @ \$25 per person + \$75 per person for teacher manuals if needed for those who need a replacement.</i>  <i>Upon a teacher’s 5th year of consecutive use, no further renewals are required. Returning teachers will still be welcome at no charge to renewal sessions as they desire.</i>

StrengthBank® Classroom Strategies

*StrengthBank® Renewal Professional Certification Sessions and New Teacher StrengthBank® Professional Certification Sessions can occur on 1 rather than 2 in-service days. Returning teachers 2 hour renewals can be a joint session with the new teachers who have completed 4 hours initial training earlier that same day. That keeps licensing and training costs at \$3500.00 for one entire training day rather than break into 2 days @ \$3500.00 each if so desired.

Presentations are available for multiple school participants for those high schools in geographic proximity whose teachers are using the StrengthBank® Classroom Strategies. In that case the schools can share the in-service training fees and year’s license.
