

The Business-Education-Community Bridge That Connects Today's and Tomorrow's Workforce

Business-Education-Community-StrengthBank®-Certified Volunteers Mentor During High School Advisories.

Higher Education And The Workplace

Local High School

StrengthBank® TALK GROUPS

Where teens are mentored to the positive voice for each one's bank of strengths.
Mentoring throughout the high school experience.

Meaningful Time Together

45 Minute StrengthBank® periods 2 times a month during the school year are made up of about 15 students, one faculty member and one adult volunteer. Methodology: talk groups, role-play, demonstration, media analysis, diagnostics, scenarios, games, feedback, problem solving. Creation of life-long mentors and network connections.

Open Communication

All levels
High school students, high school faculty and staff, higher education, community and business leader volunteers. Learning to connect across generations.

Coping Ability

Character-building life direction taught in tandem with academic skills. Understanding each one's unique strengths leaves one prepared to live life with its sometimes unhappy circumstances rather than to be victimized by sometimes unhappy circumstances—developing morality, values, ethics and integrity.

Appreciation for Each Other

Personal differences are desired for stronger partnerships – recognition of weaknesses as strength – each can be in his or her StrengthBank® best. Relationship skills taught in tandem with academic skills– reliance on relationship skills to solve problems–practical preparation for working with others.
